About Us

➢ **DCS Focuses Exclusively On Business-to-Business Data Interchange**

Successful companies have implemented supply-chain concepts by choosing components that are best suited to their unique way of doing business. The goal of DCS is to help you improve your supply-chain processes. Your existing EDI and ERP systems are the best foundations upon which to build. The challenge is to connect to customers, transporters, and vendors in the most economical yet efficient method.

Since 1991 DCS has focused exclusively on business-to-business complexities, helping you quickly, economically, and thoroughly. Over 500 companies have improved their process and became more self-reliant with DCS help. For a short list of some of the companies that have benefited from our EDI consulting, view list of our customers.

➢ **The DCS Mission Statement**

DCS helps improve its customers' competitive position by delivering appropriate and timely EDI and B2B solutions to meet its customers' business challenges. From assessment, planning, mapping, installation, and training, to maintenance, DCS helps its customers excel.

Helping Customers Succeed

➢ **DCS has clients of all sizes in many different industries.**

At DCS, we provide winning answers that make your ideas reality. Call us practical, but we don't see how today's advanced information technology accomplishes anything unless you can put that information to productive use. That's where DCS comes in. Since 1991, DCS has solved EDI problems for customers across the United States and Canada. We know how to turn information into a practical, profit-making resource. In fact, we have implemented literally hundreds of EDI applications: from basic order entry to total integration.

Our specialists are focused on several industries and can bring the benefit of industry specific experience to you. Click here to learn more about our services.

PROMPT™ Remote Support

> ## Rapid Repair to Solve Your EDI Emergency Now!

Are your connections to customers down? Do you have an EDI emergency? Change in staffing or someone on vacation? Just need more EDI assistance? Data Communication Solutions (DCS) can help! Our PROMPT™ Remote Support will rapidly return you to production status quickly and efficiently, eliminating costly downtime.

DCS' Remote Support provides an EDI Specialist who will:

- Log-in to your system remotely using GoToMyPC or WebEx to identify the issue.
- Speak with you about the errors you encounter and the solutions you have implemented.
- Create a task list with time estimates and priorities that you approve before work begins (your budget is protected because work orders are always required).
- As work occurs you are updated.
- Follow through with the issue until a solution is found and put in place.

Our EDI Specialists are experienced with most EDI software, EDI VAN (Cloud), AS2, ERP gateways and WMS systems as well as with your key customers' EDI requirements. You will be provided with a clear list of what needs be done and a time frame for easy budgeting.
